OBJECTIVES

- To secure an internship position in the field of full-stack development, leveraging my strong foundation in programming languages, web development frameworks, and database management systems.

EDUCATION

B.Tech in CSE - SRMCEM-LUCKNOW AKTU University, GPA: 7.55/10.0
Saryu Devi Saraswati Vidya Mandir(AMETHI), 12th UP Board, Percentage: 86,
Ranveer Shingh Inter Colage(AMETHI), 10th UP Board, Percentage: 83.5

Nov 2022 / July 2026
June 2022
June 2020

SKILLS

Languages : C , Python , HTML , CSS , JavaScript , Node.js , SQL .
Frameworks : React , Pandas , Numpy , Express.js , Tailwind.
Tools : MYSQL , Bootstrap , GitHub , postman , VsCode.

PROJECTS

- >BookStore :** **April 2024**
- Contributed to the development of the user interface (UI) and user experience (UX) design of a Book Store app using HTML, CSS, and JavaScript, React Frame-work Based Project. [\(GitHub-Link\)](#)
 - Implemented backend functionalities for the Book-Store app using Node.js, including user authentication, order management.
 - Designed and maintained the database architecture for the Book-Store app using MongoDB, optimizing data storage and retrieval efficiency.
- >Printerest and Instagram-clone :** **Dec 2023**
- Printerest : A full-stack web application inspired by Pinterest, built with Node.js, Express.js, MongoDB, and EJS. Users can discover, save, and organize images, create boards, and explore a curated feed. The project emphasizes responsive design and provides a seamless experience across devices. [\(Drive-Link\)](#)
 - Instagram-clone : An instagram clone created with the MERN stack.
- >Mini Projects :** **Jan-Dec 2023**
- Myntra-clone ([GitHub-Link](#)) , You-Tube ([Drive-Link](#)) , Currency Converter(API)([GitHub-Link](#)) , Tic-Tac-Toe , stone paper scissors(Java-Script) , Fragment-app/Calclater(React), Amazon-clone , Todo-App(React)([Drive-Link](#)) QR(Python), Typing-Speed(Python), Internet-Speed(Pyhon)([GitHub-Link](#)).

ACHIEVEMENTS

- Internship** **Sep 2023/Oct 2023**
IBM (Full Stack and Data Analytics) Lucknow
- FULL Stack– During my internship at IBM, I had the invaluable opportunity to immerse myself in the world of full-stack development within one of the industry's leading technology companies.
 - Implemented RESTful APIs and microservices architecture using technologies like Node.js and Express.js to facilitate efficient data exchange and communication between the front-end and back-end systems.
 - Data Analytics–During my internship at IBM, I had the privilege to delve into the realm of data analytics within a dynamic and innovative environment. .
- Oct 2023/Nov 2023**
- IBM (Cloud computing and Python 101 for Data Science) Lucknow
- Cloud Computing– During my internship at IBM, I had the privilege to immerse myself in the dynamic world of cloud computing, where I gained hands-on experience in designing.
 - Python–During my internship at IBM, Developed and maintained Python applications, scripts, and automation tools to streamline business processes
 - Implemented data processing and analysis tasks using Python libraries like Pandas, NumPy, and SciPy.

CURRICULUM ACTIVITIES

At-School:

Ex-ScoutGuide member (2020/21) , Debate competition (**2nd position**) , Volunteer-work(Vidya Mandir-Amethi), (2020/21)
Inter-school badminton competition (**2021**)

At-College:

Abhivyakti Member (**April 2023**)
